Fall Cruise on November 11, 2006

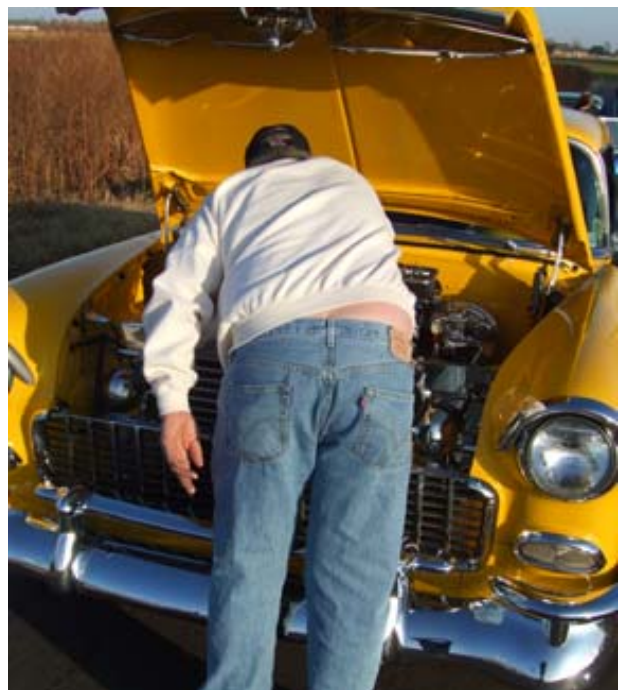

True Osborn, leader of the pack, had some trouble under the hood. Something to do with his radiator? I bet he needs to take it to Osborn's Radiator Shop.

We met about 8 a.m in Tri-City to cruise to the Wichita Mountains and Lawton area. We were cruising down the highway and True pulled over and lifted his hood. I think that his thermostat was stuck and he needed the help of some of the men who were in the caravan. You can see that it takes one to fix the car and four to tell the one how to fix the car. We began again.

We cruised along highway for our lunch destination at Meers. We had our own little car show while we were eating at Meers. We came out and there were people with their cameras taking pictures of our cars. Of course we talked about our cars.

From there, we went to the Wichita Mountains and to the welcome center and then on to feed and watch the prairie dogs. We left from there and went to Medicine Park. The women went looking in all the craft shops and the men watched the cars. We left there and drove around Lake Lawtonka. Then we went to Marlow to eat at Guisepe's. The club members had a great time and wished that more members had made the trip with us.

Cars left to right: Welch, Duerksen, Escalera Myers & Osborn. It was a wagon sort of day. There was another GM car present, but it was a late model and not in the picture.

COCCC Website Gets a New Look

by Keith Marang

Hello all my dear friends. If you have been to our website recently you will have noticed a completely new look. I hope you all like the new website. I have tried to make it more functional and easier to navigate around.

There is nothing worse than a stale website that is out of date. I have been having trouble keeping up with the demand for Classifieds, Events and sites requesting links. (Probably the distraction of the ocean, girlfriend, etc.) In an effort to make our site professional looking, I have dropped these areas. The links will remain, but I will only be updating Car Club links. The rest will just stay the same.

Any idea how much traffic our website gets? Our Peak month this year was April 2006. We had 586,000 hits (access to a single web page) and 35,130 Unique Visitors! Who would have thought that our little club website that started in 1997 would have 35,000 + visitors in one month.

One final thought. I now have my 56 one the road again. I am looking forward to seeing anyone who comes to FL for the Winter National in February.
